WOODLAWN FARMERS' CLUB.
Pursuant to adjournment the Woodlawn Farmers' Club met at the residence of John Ballenger and wife last Saturday and came to order about 4:30 p. m. at the call of the president, J. W. Roberts.

The minutes of the March meeting were read and with some little corrections approved.
The principal subject under discussion was the dairy business and the relation of the milk producer to the health department and the consumer.
Mr. Roberts stated that he had seen in the Country Gentleman a statement from a New York inspector in which he said he had never found a case against thoroughbred Holstein cows' milk either by the Babcock or lactometer test.

Mr. Harrison said it is the dealer and not the health department that is demanding Jersey milk. The health department only require 34 per cent. but the dealer want the milk to show a large quantity of cream after it is put up in glass bottles but that is a very poor test for milk after it has been cooled and shaken up in shipping, for the cream does not rise readily.
Some of those present thought that Mr. Powell at the last meeting placed the daily milk production of a good cow too high; that there are very few cows that will average 30 lbs. per day throughout the year.
Mr. Wilkerson said his best cows would give about seven hundred gallons in a year.

Mr. Harrison had asked Maj. Alvord at the time of the institute meeting if he thought the butter the most valuable part of the milk for food to which Maj. Alvord replied that it is the least valuable as food, but the most valuable commercially.
Major Alvord also said that his statement that there were no facts to show conclusively that consumption in the human family is traceable to the milk supply has been confirmed by an eminent physician.
This discussion brought out the general opinion that this club should do something to encourage a union of milk producers.

Mr. Wright thought that the dairy men of Virginia and Maryland should each have an organization and hold a quarterly conference in Washington, at which the dealers and health department could be present.
Mr. Harrison offered the following and moved its adoption:
Resolved, That this club is favorable to a union of Virginia dairymen who ship dairy products to Washington.
After some discussion on the difficulties of getting the dairymen to attend the meeting the resolution was unanimously adopted.
It was moved by Mr. Harrison and seconded by Mr. Gillingham that this club appoint a committee to take steps tending toward a union or organization of Virginia dairymen.
The motion was carried and the chair appointed Frank Wilkerson, Bert Harrison and A. L. Lukens.
On motion J. W. Roberts and E. A. Thompson were added to the committee and it was arranged to have a meeting on the morning of Tuesday, the 5th inst., at the office of the Fairfax Mutual Insurance Company, Alexandria, to make further arrangements.
The club then adjourned to meet at Mrs. D. D. Thompson, Fairfax county, on the 30th of April.
After adjournment about 90 ladies, gentlemen and children partook of the supper prepared by the host and after a few hours pleasantly spent socially returned to their homes over the rough roads by such light from the waxing moon as could pierce the lowering warclouds. CHAS. M. PIDGEON, Sec'y.

MEDICINAL.

THE SUCCESSFUL REMEDY FOR NASAL CATARRH

Must be non-irritating, easy of application, and one that will by its own action reach the inflamed and diseased surface.
ELY'S CREAM BALM combines the important requisites of quick action and specific curative powers with perfect safety to the patient. This agreeable remedy has mastered catarrh as nothing else has, and both physicians and patients freely concede this fact. All druggists cheerfully acknowledge that in it the science of pharmaceutical skill has been reached. The most distressing symptoms quickly yield to it. In acute cases the Balm imparts almost instant relief.
BY ABSORPTION.
Catarrhal sufferers should remember that Ely's Cream Balm is the only catarrh remedy which is quickly and thoroughly absorbed by the diseased membrane. It does not dry up the secretions, but changes them to a limpid and colorless condition, and finally to a natural and healthy character.
The Balm can be found at any drug store, or by sending 50 cents to Ely Brothers, 56 Warren Street, New York, it will be mailed. Full directions with each package.
Cream Balm opens and cleanses the nasal passages, allays inflammation, thereby stopping pain in the head, and protects the membrane and restores the sense of taste and smell. The Balm is applied directly into the nostrils. mh18 tmy1

CHINA, GLASSWARE, &c.

Spring Goods
